AUD / USD

Pushing lower.

- AUD/USD keeps on weakening after the last week's spike. Hourly support lies at 0.7170 (30/11/2015 low) and hourly resistance is located at 0.7382 (12/10/2015 high). Support implied by the lower bound of the uptrend channel has been broken. Expected to show monitoring of the support at 0.7170 to confirm a trend reversal.

- In the long-term, we are waiting for further signs that the current downtrend is ending. Key supports stand at 0.6009 (31/10/2008 low) . A break of the key resistance at 0.8295 (15/01/2015 high) is needed to invalidate our long-term bearish view. In addition, we still note that the pair remains well below the 200-dma which confirms selling pressures.

EUR / CHF

Higher volatility.

- EUR/CHF is still moving sideways from 1.0950 to 1.0800. Hourly support lies at 1.0798 (03/12/2015 low) while hourly resistance can be found at 1.0982 (25/09/2015 high). Expected to show further weakness on the short-term as the technical structure supports a short-term bearish view.
- In the longer term, the technical structure remains negative as long as prices remain below the resistance at 1.1002 (02/09/2011 low). The ECB's QE programme is likely to cause persistent selling pressures on the euro, which should weigh on EUR/CHF. Supports can be found at 1.0184 (28/01/2015 low) and 1.0082 (27/01/2015 low).

EUR / JPY

Holding below resistance at 134.60.

- EUR/JPY is consolidating after the pair has spiked last week. Hourly resistance lies at 134.60 (04/12/2015 high). Stronger resistance is located at 137.45 (17/09/2015 high). Hourly support lies at 129.67 (27/11/2015 low). The technical structure still suggests a downside momentum. Expected to show further bearish consolidation.
- In the longer term, the break of the support at 130.15 validates a medium-term succession of lower highs and lower lows. As a result, the resistance at 149.78 (08/12/2014 high) has likely marked the end of the rise that started in July 2012. Key supports stand at 124.97 (13/06/2013 low) and 118.73 (25/02/2013 low). A key resistance can be found at 141.06 (04/06/2015 high).

EUR / GBP

Pausing.

- EUR/GBP is consolidating below hourly resistance at 0.7279 (08/12/2015 high). Hourly support is given at 0.6982 (17/11/2015 low). The technical structure suggests that an upside momentum may be gaining some traction. Expected to show further consolidation.
- In the long-term, prices are in an underlying declining trend. The general oversold conditions suggest a limited medium-term downside potential. A key resistance lies at 0.7592 (03/02/2015 high).

GOLD (in USD)

Downside traction.

- Gold is still heading downwards despite last week's spike. Hourly support lies at 1044 (05/02/2015 low). Hourly resistance is given at 1110 (06/11/2015 high). Expected to show further weakness.
- In the long-term, the underlying downtrend (see declining channel) continues to favour a bearish bias. A break of the resistance at 1223 is needed to suggest something more than a temporary rebound. A major support can be found at 1045 (05/02/2010 low).

SILVER (in USD)

Back towards 14.00.

- Silver is heading toward strong support at 13.51 (19/08/2009 low). Hourly resistance can be found at 15.45 (declining channel) seems way too far. Expected to see back further weakness toward hourly support at 13.51.
- In the long-term, the break of the major support area between 18.64 (30/05/2014 low) and 18.22 (28/06/2013 low) confirms an underlying downtrend. Strong support can be found at 11.75 (20/04/2009). A key resistance stands at 18.89 (16/09/2014 high).

Crude Oil (in USD)

approaching seven-year-low.

- Crude oil keeps on weakening. The commodity has slumped to 36.64. The medium-term technical structure is clearly negative in a context of oil oversupply. Expected to show continued weakness.
- In the long-term, crude oil has not shown signs of recovery. Strong support lies at 37.75 (24/08/2015) has been broken and 32.40 (18/08/2015 low) is now on target. Nonetheless, crude oil is holding way below its 200-Day Moving Average (setting up at 50). An very unlikely break of the resistance at 60.72 (05/07/2015) would confirm an underlying uptrend.
