

# **DAILY TECHNICAL REPORT**

**12 February 2016**

## EUR / USD

**Ready to monitor resistance at 1.1387.**

- EUR/USD keeps on pushing higher. Hourly resistance lies at 1.1387 (20/11/2015 high). Hourly support may be found at 1.0711 (05/01/2016 low). Yet, expected to show further increase.

- In the longer term, the technical structure favours a bearish bias as long as resistance holds. Key resistance is located region at 1.1453 (range high) and 1.1640 (11/11/2005 low) is likely to cap any price appreciation. The current technical deteriorations favours a gradual decline towards the support at 1.0504 (21/03/2003 low).

## GBP / USD

### Rising slowly.

- GBP/USD's short-term momentum is still lively. Hourly resistance can be found at 1.4668 (08/02/2016 high). Hourly support can be found at 1.4081 (21/01/2015 low). The technical structure looks very positive. Expected to show further increase.

- The long-term technical pattern is negative and favours a further decline towards the key support at 1.3503 (23/01/2009 low), as long as prices remain below the resistance at 1.5340/64 (04/11/2015 low see also the 200 day moving average). However, the general oversold conditions and the recent pick-up in buying interest pave the way for a rebound.

## USD / JPY

### Consolidating.

- USD/JPY's sharp decline is now pausing. Hourly resistance lies can be found at 123.76 (18/11/2015 high). There is no hourly support for the time being. The road is wide open for further decline.
- The strong support at 115.57 (16/12/2014 low) has been broken and fully erased. We start favouring a long-term bearish bias. A gradual rise towards the major resistance at 135.15 (01/02/2002 high) seems now less likely. Another key support can be found at 105.23 (15/10/2014 low).

## USD / CAD

### Lack of follow-through.

- USD/CAD is trading below 1.4000. Hourly resistance can be found at 1.4690 (20/01/2015 high). The technical structure suggests further consolidation.
- In the longer term, the break of the key resistance at 1.3065 (13/03/2009 high) has indicated increasing buying pressures, which favours further medium-term strengthening. Strong resistance is given at 1.4948 (21/03/2003 high). Support can be found at 1.2832 (15/10/2015 low) then 1.1731 (06/01/2015 low).

## AUD / USD

### Trading in range.

- AUD/USD is moving sideways between daily support at 0.6827 (15/01/2015 low) and resistance at 0.7328 (31/12/2015 high). The medium-term technical structure remains clearly negative. Yet, on the short-term the technical structures is showing a slow increase.

- In the long-term, we are waiting for further signs that the current downtrend is ending. Key supports stand at 0.6009 (31/10/2008 low) . A break of the key resistance at 0.8295 (15/01/2015 high) is needed to invalidate our long-term bearish view. In addition, we still note that the pair is approaching the 200-dma which confirms fading selling pressures.

## EUR / CHF

### Bouncing above 1.1000.

- EUR/CHF's is back above 1.1000. This is only a very short-term retracement. Hourly resistance lies at 1.1200 (04/02/2016 high). Hourly support lies at 1.0733 (28/08/2015 low). There is a clear downward move towards 1.0900.

- In the longer term, the technical structure remains positive. Resistance can be found at 1.1200 (04/02/2015 high). Yet, the ECB's QE programme is likely to cause persistent selling pressures on the euro, which should weigh on EUR/CHF. Supports can be found at 1.0184 (28/01/2015 low) and 1.0082 (27/01/2015 low).

### Setting a new 13-year low.

- Crude oil is definitely not recovering. The technical structure remains clearly negative in a context of oil oversupply. Hourly support at 26.19 (20/01/2016 low) has been broken. Hourly resistance may be found at 34.82 (28/01/2016 high). Expected to show further decline.

- In the long-term, crude oil is on a sharp decline and is of course no showing any signs of recovery. Strong support at 24.82 (13/11/2002) is now on target. Crude oil is holding way below its 200-Day Moving Average (setting up at around 47). There are currently no signs that a reverse trend may happen.
